

# **REST Assured API Automation Framework Report**

## **Project Title**

**API Automation Testing Framework for Product Collection APIs using REST Assured and JUnit 5**

---

## **1. Objective**

**The objective of this project is to design and implement a reusable API automation testing framework using REST Assured**

### **Target Website:**

<https://demoqa.com/>

Github: [RajaVUst/SDET at capstone/299166-ManiPrasad](https://github.com/RajaVUst/SDET-at-capstone-299166-ManiPrasad)

---

## **2. User Story**

**As a QA Automation Engineer,**

**I want to automate create user, generate token, get books API endpoints**

---

## **3. API Details**

### **Base URL**

<https://demoqa.com/>

---

## **4. Environment & Setup**

### **Hardware**

#### **Processor:**

**Intel Core i5 or above**

#### **RAM:**

**8 GB**

#### **Storage:**

**Minimum 10 GB**

---

### **Software**

**Operating System:**  
Windows 10 / Windows 11

**IDE:**  
IntelliJ IDEA

**Programming Language:**  
Java 17+

**Build Tool:**  
Maven

**Test Framework:**  
JUnit 5

**API Testing:**  
REST Assured

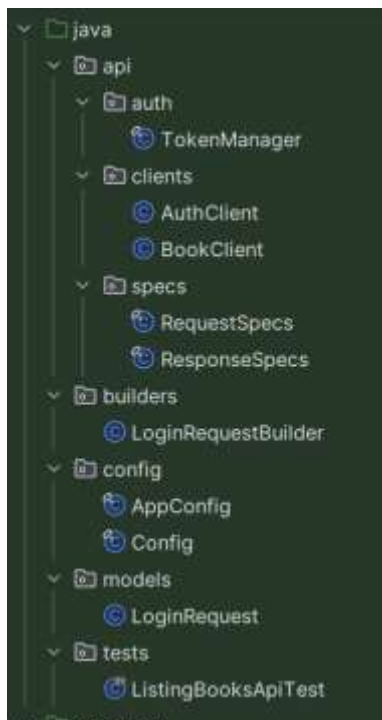

**Schema Validation:**  
JSON Schema Validator

**Version Control:**  
Git

**Repository:**  
GitHub / GitLab

---

## 5. Project Structure

## 6. Scenario

Create a user

Generate a token

List books

Validation:

- Status code
- Response body

Expected:

200 OK

---

## 7. How to Run

Open terminal.

Execute:

`mvn clean test`

Run individual test:

`mvn -Dtest=ListingBooksApiTest test`

Run from IDE:

Right Click ListingBooksApiTest → Run

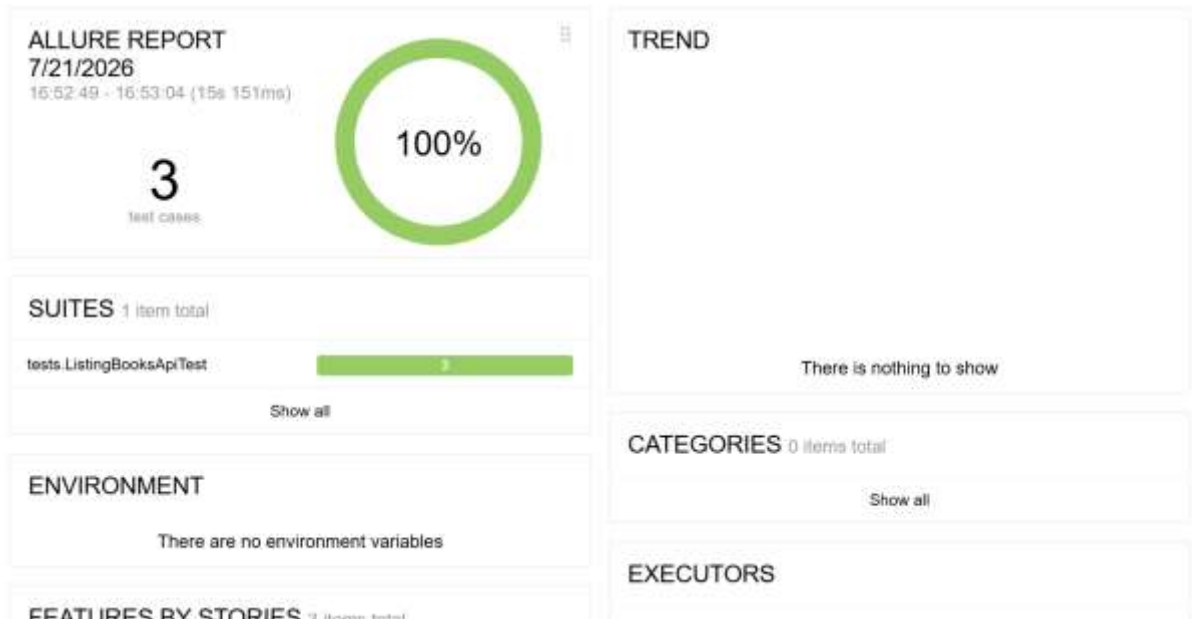

---

## 8. Test Results

```
[INFO] T E S T S
[INFO] -----
[INFO] Running tests.ListingBooksApiTest
User already exists. Continuing with token generation...
[INFO] Tests run: 3, Failures: 0, Errors: 0, Skipped: 0, Time elapsed: 15.25 s -- in tests.ListingBooksApiTest
[INFO]
[INFO] Results:
[INFO]
[INFO] Tests run: 3, Failures: 0, Errors: 0, Skipped: 0
[INFO]
[INFO] -----
[INFO] BUILD SUCCESS
[INFO] -----
[INFO] Total time: 21.456 s
```

---

## 9. Evidence

## 10. Conclusion

The REST Assured API Automation Framework was successfully developed to automate APIs.
